

Do you want to know more about how your heating plant can reduce its operating costs?

Welcome to listen to Affärsverken Karlskrona, who will talk about their ORC turbine and how they became a producer of both heat and electricity.

We are pleased to invite you to this fall's second study visit at one of our ORC installations. This time, we will be visiting Affärsverken Karlskrona's heating plant in Gullberna Park, Sweden. **The visit will be held both on site and digitally so that as many as possible can participate.**

During the visit, you will have the opportunity to listen to the heating company Affärsverken Karlskrona who will talk about their experiences from installation and operation of the ORC turbine. You will also be able to see the ORC turbine on site and listen to Againity who are going to talk about the ORC technology and electricity production from 50 to 2500 kW.

Date: Tuesday, November 12th 2024

Time: 13.00-15.00, Lunch at 12.00-13.00 (for participants who are on site).

Location: Kolonivägen 72, Gullberna Värmeverk, Karlskrona, Sweden

Register by replying to this email no later than **Wednesday November 6th**. Enter the name, email address and telephone number of each person attending. The study visit will be held both on site and via Teams and a meeting invitation will be sent to you the day before the study visit.

You are welcome to contact us with questions and concerns regarding the study visit or the ORC technology by phone or email (contact information can be found below).

Welcome!
