

Time to cut heating plant operating costs with ORC turbine?

Welcome to see Njudung Energi's upgrade of the heating plant in Sävsjö!

We are pleased to once again be able to invite you to visit one of our ORC installations. This time we have the honor to visit Njudung Energi's heating plant in Sävsjö, Sweden, and their 315 kW ORC-turbine. **The visit will be held both on site and digitally so that as many as possible can participate.**

During the visit, you will have the opportunity to listen to the heating company Njudung Energi who will talk about their experiences from installation and operation of the ORC turbine. You will also be able to see the ORC turbine on site and listen to Againty who are going to talk about the ORC technology and electricity production from 50 to 10 000 kW.

Date: Thursday December 5th

Time: 10.00-12.00, Lunch at 12-13 (for participants who are on site).

Location: Smedgatan 40, Njudung Energi, Sävsjö, Sweden

Register by replying to this email no later than Friday November 29th. Enter the name, email address and telephone number of each person attending. The study visit will be held both on site and via Teams and a meeting invitation will be sent to you the day before the study visit.

You are welcome to contact us with questions and concerns regarding the study visit or the ORC technology by phone or email (contact information can be found below).

Welcome!
